

Just Another  
Way To Pay

# Are you feeling the Impact of Inflation?

Your Utah Legislators Have THE ANSWER.

## Imagine a Utah Gold-Based Constitutional Currency you can spend with a debit card like this that keeps up with inflation!

Introducing your Utah Transactional Gold Card! With this card, you can transact in gold or silver! Simply set up an account at an official Utah State Depository and conveniently exchange your dollars into Utah gold or silver and start spending or saving just like you do with a regular bank account.

Combine existing technology with US Constitution Article 1, Section 10 and you have what we call Transactional Gold – a debit card with full electronic features like Apple Pay or Samsung Pay but issued by Utah.

This Utah gold debit card will represent the amount of physical gold you have held in an Official Utah State Depository and represented in your debit card wallet.

**Spend it!** Go to a restaurant, use your Utah Gold/Silver debit card to pay for your meal in gold, rather than paper money.

**Save it!** Don't want to spend your gold or silver? Hold it in an official Utah State Depository and let it rise during inflationary times. Have confidence it is there for a rainy day and easily transactional when needed.

Now everyday Americans can buy, sell, and hold gold easily! It sounds like science fiction, but it is available today through commercial applications like Gold Debit Cards, but the gold is typically held in Switzerland. As Utahns our gold should be in Utah, not Switzerland. Plus, being a Utah card it comes with the other benefits of legal tender.

---

With the successful passage of this legislation, your Utah Legislators can create a place for everyday Americans to protect their finances!
